

**FY 2010 - 2019 STATEWIDE TRANSPORTATION IMPROVEMENT PROGRAM**  
**New Jersey Department of Transportation**

**Route 70, Hartford Road, Intersection Improvements**

DB # 9049B

UPC 068014

MILEPOST(S) 12.81

COUNTY: Burlington

MUNICIPALITY: Medford Twp.

The existing and projected traffic demand for the intersection as well as accident data above the statewide average, establish a need for improvements to increase capacity and improve safety at the intersection. Currently, Medford Township is advancing a project to mitigate the intersection deficiencies. The proposed condition provides left turn slots on all four (4) approaches at the intersection and a short dedicated right turn lane on Route 70 Westbound. The funding for Medford's project, which is a combination of dollars provided by NJDOT through Local Aid, Medford Township funds, and Developer funds is in place. It was proposed and accepted at the March 24, 2009 CPC Meeting that an additional lane on Route 70 WB be added, linking the proposed Hartford Road Intersection Improvements with the previously widened intersection at Route 70 and Old Marlton Pike/Medford Evesboro Road. The short dedicated right-turn lane on the East side of the intersection (WB) will be changed to a through/right lane and be lengthened to meet the existing cross-section at the Old Marlton Pike/Medford Evesboro Road intersection. The original cost for the proposed NJDOT project was estimated to be \$4.7 million. Instead, the "add-on" cost for this joint effort is estimated to be only \$600,000.

ASSET MANAGEMENT CATEGORY: Congestion Relief-Hwy Operational Improvements
