Metropolitan Planning (DBNUM: X30A) County: Various													
NJDOT supports the federally mandated Metropolitan Planning Organization transportation planning process. New Jersey Metropolitan Planning Organizations carry out a "3C" transportation planning process whereby planning activities are conducted on a continuous basis while also providing a forum for cooperative decision making among responsible state and local officials, public and private transit operators and the general public.

Ocean Drive (CR 619), 62nd Street to 80th Street (DBNUM: S1710; UPC: 173700) County: Cape May													
The project consists of milling and resurfacing 0.96 mile section of County Road No. 619. Cross slopes of the asphalt pavement will be made compliant with AAHSTO standards. The curb ramps at each intersection with sidewalks will be brought into compliance with ADA requirements. Long life pavement stripes and markings will be installed upon completion of the paving. Additional stormwater drainage facilities will be provided to reduce the spread of ponding water in the gutter. Stormwater management and bicycle compliant grates and frames will be installed on existing catch basins.													
SJTPO	CON	STBGP-AC		\$1.676									\$1.676
SJTPO, Future Projects (DBNUM: S044; UPC: 058025) County: Various													
This program provides funding for local projects to be selected by the South Jersey Transportation Planning Organization, the designated Metropolitan Planning Organization for Salem, Cumberland, Cape May and Atlantic counties.

Third Avenue (CR 619), 96th Street (CR 657) to 80th Street (DBNUM: S1910; UPC: 193450) County: Cape May													
The project will involve the replacement of the existing curbs, gutters, and sidewalks along with handicap access upgrades. The existing paving will be replaced with a new 7 1/2" thick bituminous surface. The existing roadway grade and cross slopes will be upgraded to conform to current standards, and drainage will be upgraded to accommodate the 10 year storm event. High visibility traffic stripes and markings will be installed, as will pedestrian crosswalks and cross walk safety features. The project is needed in order to restore the roadway to current engineering standards. County Road 619 is an evacuation route leading to the only non-load posted causeway off of this barrier island in the event of an emergency. Numerous storm events, in addition to constant wear, have created the need to restore and upgrade this section of critical road infrastructure. In addition, the roadway serves as a primary pedestrian connector to the municipal streets and serves as a vital commercial corridor for the influx tourists at this resort island. This has increased the need for upgraded pedestrian crossings and traffic safety measures.
