****Transit access** via PATH station at Journal Square and/or NJ TRANSIT bus #10

Project Information

Route 139 (Covered Roadway) Conrail and Hoboken Viaducts Rehabilitation Project

This project will replace the deck, beams and columns on the Hoboken Viaduct. The deck on the Conrail Viaduct will be replaced and intersection improvements will be made on the Covered Roadway (Hoboken Avenue/State Highway). This work will require detours due to intersection closings and lane restrictions.

Pulaski Skyway Rehabilitation - Deck Replacement Project

Starting April 12, 2014 the Department of Transportation will begin to replace the deck on the 3.5-mile long Skyway. As a result, all northbound traffic will be detoured. Kearny and Broadway center ramps also will be closed.
