

STATE OF NEW JERSEY
DEPARTMENT OF ENVIRONMENTAL PROTECTION

(See Issuing Division below)

PERMIT*

The New Jersey Department of Environmental Protection grants this permit in accordance with your application, attachments accompanying same application, and applicable laws and regulations. This permit is also subject to the further conditions and stipulations enumerated in the supporting documents which are agreed to by the Permittee upon acceptance of the permit.

Permit No. 0200-02-0010.1; WFD, GP11 020001, TAW 020002	Application No.
--	-----------------

Issuance Date January 14, 2003	Effective Date JAN 14 2003	Expiration Date January 14, 2008
-----------------------------------	--------------------------------------	-------------------------------------

I-80 / I-95 Rehab & Operational Improvements Teaneck Township, Bogota Borough, Village of Ridgefield Park, Bergen County Waterway: Hackensack Rr. & Overpeck Cr.	Land Use Regulation Program	NJSA 13:9-1 NJSA 13:9B-1 NJSA 12:5-3 NJSA 13:9A-1

Type of Permits: Waterfront Development (upland), Freshwater Wetlands General Permit #11, Transition Area Waiver	Maximum Approved Capacity, if applicable
--	--

This permit grants permission to: conduct rehabilitation and operational improvements along I-80 & I-95 for the reconstruction of four (4) overpass structures, pavement replacement, lane reconfiguration, drainage system reconfiguration including 6 new outfalls, and the construction of noise barriers. The wetland impacts of 0.019 acres (permanent) and 0.005 acres (temporary) and transition area impacts of 1.704 acres (permanent) and 0.428 acres (temporary) will include restoration of temporary disturbances. **A Water Quality Certification is provided as part of this authorization.**

Issuance of this permit is in no way construed as a relinquishment by the State of New Jersey of any tidelands right, title or interest in the subject property or in any land surrounding it.

This permit is authorized under and in compliance with the applicable Rules on Coastal Zone Management (N.J.A.C. 7:27E-1.1 et seq.) provided permit conditions contained herein are met.

The Permittee shall allow an authorized representative of the Department of Environmental Protection the right to inspect construction pursuant to N.J.A.C. 7:7-1.5(b)4.

The plans hereby approved depict wetlands and transition areas and consist of the set of ten (10) sheets of drawings entitled "State of New Jersey Department of Transportation plans of Interstate 80 from the vicinity of 2nd St. to I-95 and Interstate 95 from Interstate 80 to the vicinity of Emerson Street Contract No. 067960512 Widening, Grading, Paving, Drainage, and Noise Walls," signed by Frank A. Baragona and dated November 1, 2002.

*The word permit means "approval, certification, registration, etc." (General Conditions are on Page Two)

Coastal Permit General Conditions

1. This permit is revocable, or subject to modification or change at any time, pursuant to the applicable regulations, when in the judgment of the Department of Environmental Protection of the State of New Jersey such revocation, modification or change shall be necessary.
2. The issuance of the permit shall not be deemed to affect in any way action by the Department of Environmental Protection of the State of New Jersey on any future application.
3. The works, facilities, and/or activities shown by plans and/or other engineering data, which are this day approved, subject to the conditions herewith established, shall be constructed and/or executed in conformity with such plans and/or engineering data and the said conditions.
4. No change in plans or specifications shall be made except with the prior written permission of the Department of Environmental Protection of the State of New Jersey.
5. The granting of this permit shall not be construed to, in any way, affect the title or ownership of property, and shall not make the Department of Environmental Protection or the State a party in any suit or question of ownership.
6. This permit does not waive the obtaining of Federal or other State or local government consent when necessary. This permit is not valid and no work shall be undertaken until such time as all other required approvals and permits have been obtained.
7. A copy of this permit shall be kept at the work site, and shall be exhibited upon request of any person.
8. In cases of conflict, the conditions of this permit shall supersede the plans and/or engineering data.

ADMINISTRATIVE CONDITIONS

Prior to initiation of site preparation for the following conditions:

1. This permit shall be RECORDED in the office of the County Clerk (the REGISTRAR OF DEEDS AND MORTGAGES in the applicable counties) in the county wherein the lands included in the permit are located within (10) days after receipt of the permit by the applicant and verified notice shall be forwarded to the Land use Regulation program immediately thereafter.
2. This permit is NOT VALID until the permit acceptance form has been signed by the applicant, accepting and agreeing to adhere to all permit conditions, and returned to the Land Use Regulation Program at P.O. Box 439, Trenton, NJ 08625.
3. PRIOR TO ANY CONSTRUCTION ACTIVITIES, the Permittee must obtain a Department of the Army authorization. You are advised to contact the New York District at (215) 656-6728.
4. This permit does not authorize the temporary use of any wetlands or transition areas beyond the limits of the proposed work for the storage or staging of construction materials (including debris/spoil piles), equipment, and workers vehicles. The applicant shall direct the contractors to locate all staging and storage areas outside of wetlands and wetland buffers.
5. The project must meet the guidelines established in "Soil Erosion and Sediment Control in New Jersey." The applicant shall be responsible for installing erosion and sediment controls prior to any land disturbances and conducting daily inspections of the project area to determine if the erosion control measures are functioning as required for the duration of the construction activities.
6. Construction vehicle traffic shall be minimized in wetlands and wetlands transition areas to be temporarily disturbed. No storage of chemicals, oil, fuel or refueling of equipment shall occur within 50 feet of the wetlands along the project route.

Page three

Permit No. 0200-02-0010.1; WFD GP11 020001, TAW 020002

7. Construction vehicle traffic shall be minimized in wetlands and wetlands transition areas to be temporarily disturbed. No storage of chemicals, oil, fuel or refueling of equipment shall occur within 50 feet of the wetlands along the project route.
8. All necessary tidelands conveyances per tidelands docket 02-0470-T for parcel T-135 must be obtained prior to construction.
9. A permit application must be submitted prior to any disturbance of vegetation for the overhead utility relocations in jurisdictional areas.

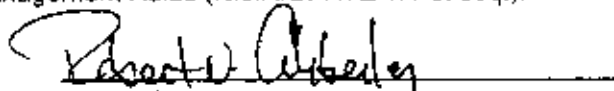

TURBIDITY AND SEDIMENTATION CONDITIONS

10. PRIOR TO COMMENCEMENT OF ANY PORTION OF THE PROJECT, the Permittee is required to provide the following: 1) silt fence around the work areas, especially at the construction of the outfalls; 2) restoration of temporarily disturbed areas shall be temporarily seeded with cover vegetation, if left idle for 30 days or more; 3) Inlets will be protected with filters prior to work within their respective drainage areas.

PHYSICAL CONDITIONS

11. All temporarily disturbed areas shall be planted with a mixture of warm and cool seasonal grasses, containing at least 20% warm season grasses. The use of one of these mixtures will permanently stabilize the soil and enhance the environment as an appropriate mixture based on the planting date and drainage.
12. All excavated materials must be disposed of at an approved site. Under no circumstances is excess material to be disposed of in wetlands, transition areas to wetlands, stream corridors, or other environmentally sensitive areas.
13. The Permittee shall maintain all soil erosion and turbidity controls for the life of the project and these controls shall be put in place prior to any construction activities. The silt fence shall be placed at the limits of land disturbances.
14. The Permittee shall monitor for suspended sediments in the water column on a daily basis when construction/demolition is taking place. If a sediment plume is detected, then the project must cease until more appropriate preventative measures are put in place.

With adherence to the above permit conditions, this project is considered to be consistent with the Coastal Zone Management Rules (N.J.A.C. 7:7E 1.1 et seq.).
