Re: Request for Emergency Permit Authorization
DLUR File No. 0609-19-0010.1 FHA190001, FWW190001
NJ Route 47, Drainage Repair at M.P. 32.5
Maurice River Township,
Cumberland County

Dear Ms. Englehart:

The Division of Land Use Regulation has received your request for an emergency permit authorization to replace the existing culvert under Route 47 at M.P. 32.5 over the Maurice . The existing culvert is deteriorating leading to a sink hole and undermining of the roadway. The existing arch culvert will be replaced with a new 18' ductile iron pipe.

The culvert replacement is shown on the three (3) plan sheets entitled "New Jersey Department of Transportation, NJ 47 MP 32.50 Drainage Repair", dated September 23, 2019, prepared by Nabil M. Hourani of McCormick Taylor Inc, and submitted to our office on October 1, 2019.

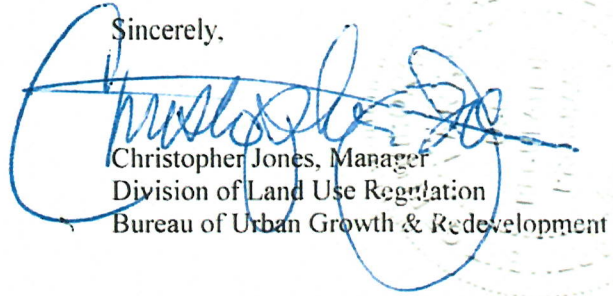

The emergency work, authorized by the Department on October 4, 2019, is subject to the following conditions.

1. The permittee shall commence the approved emergency activities within 30 calendar days of the date of this letter, unless extended by the Department. If the emergency activities are not commenced within 30 calendar days of the Department's approval, the emergency permit is void.
2. The permittee shall submit to the Department a complete application for an Individual Flood Hazard Permit and a Freshwater Wetlands Permit, as necessary, within 90 calendar days of the date of this letter.
3. The new culvert must be designed and constructed in accordance with the Flood Hazard Area Control Act Rules, N.J.A.C. 7:13 et seq.

4. Any activity performed under an emergency permit shall meet all requirements that apply to that activity under the Flood Hazard Area Control Act rules and the Freshwater Wetlands Protection Act rules, and the Coastal Zone Management rules. Upon review of the permit application and associated as-built drawings, the Department shall require modification, restoration and/or stabilization measures as necessary to ensure compliance with these rules.

If you have any questions concerning this letter, you may contact Matthew Resnick of my staff at Matthew.Resnick@dep.nj.gov or at (609) 777-3955.

Sincerely,

Christopher Jones, Manager
Division of Land Use Regulation
Bureau of Urban Growth & Redevelopment
