Route 130 lane closures required Monday as roadway improvement project begins in Burlington and Mercer Counties **Closures will continue for approximately two weeks**

(Trenton) – New Jersey Department of Transportation (NJDOT) officials today announced lane closures on Route 130 as a roadway improvement project begins in Burlington and Mercer Counties.

Beginning at 9 a.m. Monday, September 27 until 3 p.m., and continuing daily Monday through Friday for approximately two weeks, NJDOT's contractor, South State, Inc., is scheduled to close a single lane on Route 130 in both directions between the Route 130/Route 206 interchange in Bordentown, Burlington County and Route 33/CR 526/Robbinsville Allentown Road in Hamilton, Mercer County. These closures will allow the contractor to complete surveying work. At least one lane of traffic will be maintained at all times.

Following the completion of surveying work, additional lane closures will be required in the coming weeks for tree trimming and vegetation removal. Paving is anticipated to begin in spring 2022.

The \$5 million federally-funded roadway improvement project will resurface approximately seven miles of Route 130 in Burlington and Mercer Counties. It also includes partial and full-depth concrete repairs. The project is anticipated to be complete in summer 2022.

The precise timing of the work is subject to change due to weather or other factors. Motorists are encouraged to check NJDOT's traffic information website www.511nj.org for real-time travel information and for NJDOT news follow us on Twitter [@NewJerseyDOT](https://twitter.com/NewJerseyDOT) and on the [NJDOT Facebook page](https://www.facebook.com/NJDOT).
