Milos Way to be closed for railroad crossing repairs this week in Woodbridge, Middlesex County Detours necessary during construction

(Trenton) – New Jersey Department of Transportation (NJDOT) officials today announced a railroad crossing rehabilitation project requiring the closure and detour of Milos Way in Woodbridge, Middlesex County.

Beginning at 7 a.m., tomorrow, Tuesday, July 12, until 7 p.m., Thursday, July 14, Milos Way will be closed in both directions between Cliff Road and West Avenue/CR 611 to remove the existing railroad crossing. The closure will allow NJDOT's contractor, Conrail, to reconstruct the crossing and approaches. Access will be maintained for local traffic. The following detour will be in place:

Milos Way eastbound detour:

- Motorists on Milos Way eastbound will be directed to turn right onto West Avenue/CR 611
- Turn left onto Woodbridge Avenue/CR 652
- Turn left onto Cliff Road
- Turn left onto Milos Way

Milos Way westbound detour:

- Motorists wishing to take Milos Way westbound from Cliff Road southbound will be directed to continue on Cliff Road southbound
- Turn right onto Woodbridge Avenue/CR 652
- Turn right onto West Avenue/CR 611
- Turn left onto Milos Way westbound

In order to provide safer and smoother railroad crossing, the existing crossing will be replaced with new concrete crossings and asphalt approaches. This federally-funded project is included within NJDOT's railroad grade-crossing safety program which repairs, upgrades, or removes approximately 50 crossings each year, statewide.

The precise timing of the work is subject to change due to weather or other factors. Motorists are encouraged to check NJDOT's traffic information website www.511nj.org for real-time travel information and for NJDOT news follow us on Twitter [@NewJerseyDOT](https://twitter.com/NewJerseyDOT) and on the [NJDOT Facebook page](#).
